

“Crossing Over The Last 100 yards”

Israel was standing in the place of conquest, at the very precise line of victory. Not more than 100 yards ahead lay Canaan with all of its promise and provision. It had been in the heart of God for many years and now through many miracles, tears, and prayers they stood ready. Canaan stood before them like sheep totally defenseless. Like an over ripe tree it was ready to be picked. God had gone on ahead of them and prepared the land. Every city had heard of Israel's conquest and was scared to death of them.

Slaves no more, they had been freed by the mighty hand of God. They faced the Red Sea and it parted. The bitter waters of Marah had been made sweet. Miracle after miracle God performed to get them to this very staging area, they were on the border and ready to fulfill their destiny. Everything God had done for them was to lead them to this final conquest.

Think of all the things God has done for us to get us also to this very stage we stand on in life. Our call like Israel's is to go in and

conquer, to take back the ground from the enemy. Tens of thousands are waiting on us to go on. Dare we stop short and whine and complain and use human reasoning to not go on. The giants and walled cities were not going to move, neither are your problems. God wants to do what Israel refused, to go in and conquer. Let this year be the battle cry for victory. Long held strongholds of the enemy will surely fall if God gets his way. God will only have his way with a people fully persuaded, unlike doubting, pouting, fearful Israel. So strengthen the hands that hang down, blow the trumpet sound the shout of victory, we are going in saints! We will cross those last 100 yards and conquer in victory this year!!

The fate of millions hung on the obedience of so few. Ten men's unbelief became the death warrant for 2 million people. Who is depending on you to go on in faith? How many people will have victory if only you will go on into the new place! We don't see the significance of what God has called us to. It's much bigger than you think!

God bless the church!
