

Take Your Friend With You!

I don't like aloneness. I enjoy the company of others, lunch is lonely without a voice and a friend. Friends are what make life rich. You have enough time in your life to pursue "things" or "relationships", but not both. **Things are a poor substitute for a smile.**

Who is your best friend? Who are you closest to? I know for me it is the friend I take with me every day. **I have a wife of 35plus years but I have a friend closer than that and longer too.** It is of course the Holy Spirit.

Consider how great this friend is:

Jesus said don't leave the room without him! Not a suggestion but a command from none other than the Lord himself. Don't preach, don't go, except to go back to the upper room, **you're going to need the friend.**

Many brush off this command but it is their loss. **Guidance:** *"he will guide you into all truth."* Someone who knows everything, all truth about everyone, and every situation. Think of it can you afford to live without this kind of help in today's world?

Mysteries: Paul said we speak mysteries when we speak in tongues. Mysteries: secrets divinely revealed. The Holy Spirit takes the mystery out

of life for us. Confusion is not from God, but insight and guidance is.

Edify: Paul said when we pray in tongues we edify ourselves. Edify: instruction and improvement especially in morality.

As we pray in the Spirit He gives us instructions and improves our lives in every way making us morally stronger and more perfect in our relationship to our God.

So take your friend, take him everywhere you go. Your life will take dramatic turns for the better!
