

Would you send her out into the world without schooling? If she didn't know math, couldn't spell or write English, would she be ready to take on the world?

Never, we as parents are careful to extend our children's education past 12 years, into college and secondary schooling, just to make sure they can tackle the challenges of life. Yet, many people never prepare their children spiritually. They don't bring them to Sunday School, they never have Bible studies at home. Children grow into adulthood with basic ignorance of God's word. As a result they are completely vulnerable to an eternal enemy after their soul.

One hour is the difference. 9:30am instead of 10:30am-one hour can change your child's eternal life. Do you love them that much? Do you see the value of the spiritual over the secular? Plug your kids into that 9:30am time slot. They will receive excellent teaching about Christ from careful dedicated teachers. It's the one hour difference and it is critical for your child!

Pastor Chambers

Prayer builds a wall of fire
Prayer makes a hedge of thorns
Prayer brings angels to war
Prayer is the highest call most noble of them all.
Prayer brings strength to the weak and waters the seed of faith till it grows in a mighty place.
Prayer brings down the towers of doubt and fear till courage and faith become strong and clear.
Prayer puts you on the most wanted list with Satan, but in the Hall of Fame in Heaven!
Prayer that is born of love will endure a lifetime and so it does.
Someday at the end of the line angels will carry me to His side to see God's big smile and to hear "well done"
Then at last prayer will fade away for I shall have the Son.

Prayer, catch it Saturdays at 7:00pm.
