

# Bless the Children

## Sunday coming

### Dec.13<sup>th</sup> 6:00pm

*These children are not dead, nor asleep, but they are out in the Spirit of God. This picture is from Samoa a couple of years ago. They came for prayer and were slain in the Spirit. Over an hour passed and not one of them moved. Pastor Cookes*

*who was with me said, "Look, those kids are still laying there; I think I'll go examine and see if they have gone asleep." He came back with tears in his eyes, saying they were still speaking in tongues and praying.*

*These kinds of deep moves of the Holy Spirit are the only thing that will save this generation from the enemy. God has given me a burden for our children too. God wants them filled with His Spirit.*

*Parents, pray over your children, that God will meet them in a special way in these next few days and bring them to the meeting Sunday night expecting dramatic things to happen!*  
*Pastor Chamber*

### ***You Never Really Know Where You Are With God Till You're Put Under PRESSURE!***

*Pressure is good for us! It shows God where we are with Him and shows us where we are with God! When you enter conflict, you have one of two choices, run or stay and fight. If we stay, God will shore us up with his mighty hand. Long trials produce "long suffering". Hate against us allows us to show "God's love". When the trial won't move it allows us to develop "patience". So cheer up, God is doing a mighty work in you. Nothing is wrong with you, or your relationship to God. Quite the contrary God is honoring you with PRESSURE!*

### ***Scripture For The Week:***

*"He who overcomes shall be clothed in white garments, and I will not blot out his name from the Book of life; but I will confess his name before my father and before his angels". Rev.3:5*

## December Schedule
