

Inferior Wine.....

We remember Jesus' first miracle was turning water into wine. The host at the wedding party wanted to know why the best wine had been given at the last. Jesus' supply of wine was the best, and it surprised the host. I think many times we still believe Jesus makes inferior wine. We don't obey him, we don't go after what he says to pursue, we disobey because we disapprove thinking Jesus makes inferior wine.

For example, Sunday nights we still have church here. The crowds are smaller, why? Because people think Jesus is not worth a Sunday night trip. But the truth is Jesus' wine is always the best. It was two Sunday nights ago that my brother whom I have been fasting and praying for, for years, stood at the altar weeping and praying. The same service a young man was delivered from drugs and alcohol. Jesus does his best work at these times.

Nothing God has for you is inferior, it is superior to whatever you have right now. But you must pursue it; you must believe that what God has for you in your future is better than what you have right now. We settle for so much less.....why? We may not say it, but our actions show we think God is in many things inferior!

Jesus and alcohol

I know there are many who still believe in alcohol consumption and claim Christianity. But consider some alternative thoughts. The priests in the Levitical order were not to drink strong drink as part of their vow and service to the Lord. Would Jesus violate this law in order to do a miracle with wine? If you study first century history you quickly discover there was a sweet wine made from blocks of grapes mixed with water. I have the documentation if any of you would like it. Proverbs tells us alcohol stings like a serpent. Would Jesus have violated his own word? Because he is the living Word! Alcohol destroys, it destroys brain cells, people's lives, and it brings addiction and bondages. It takes the brain to an altered state where demons can impose their own will in the person's life. Does this sound like something God would condone? Ask for your free copy of "Alcohol and the Bible" you can pick it up or we will mail it to you free of charge!
