

Where there's smoke.....

Interesting things have been happening lately, unusual..... unpredictable. Last Thursday night we had an unusually large number of people at the service. I preached on the power of the Holy Spirit and we prayed for many of the new converts to be filled. The fire of God burned brightly for sometime as many wept their way through to victory.

Later at 11pm a sheriff saw our church with smoke on the roof and filling the whole parking lot front and back. He immediately called the fire trucks and 4 of them came. They blocked off Alondra and began to scramble up on the building breaking inside also to check out the fire. To their amazement there was not fire. Several people in our church also saw it and were present when the fireman said "this baffles me".

Whatever the source, the message is clear from this event. God is with us, God is moving, and we are close very close to seeing the promises God has made to us for over a decade!

Many other signs are appearing now, some good some bad, but all are signs. Satan will not just lie down while this happens! The church's computer system has been hacked and compromised.

Saints keep praying, keep believing. God is moving in mighty ways. Sunday morning a man was saved who had never been to a church before in his whole life!
God bless you all,

Pastor Chambers

Scripture For The Week

Who among you fears the Lord? Who obeys the voice of this servant? Who walks in darkness and has no light? Let him trust in the name of the Lord and rely upon his God. Isa. 51:10

Annual Church Business Mtg.

Sunday

February 27th

after the evening service

All members please be present!
