THE "SAUL SPIRIT" A STUDY IN CONFUSION

A great principle of truth is revealed in David's dealing with Saul. God had rejected Saul as King but left him in David's life for 20 years as character development.

There are many places God will take us to if we will learn the lessons from the Saul's in our life. David was content to let God teach him through this madman's escapades.

On one occasion Saul was hunting for David in the hills to kill him. And as Saul leaves a cave, David shouts to him. He had been in the cave the whole time and even cut a piece of Saul's robe off. He held it up and shouted, "why are you trying to kill me?"

What have I done to you?" Saul wept as he saw the hand of the Lord on David. He confessed David was a bigger man than he, and that David was destined for the throne. He even called David his "son" in the dialogue. But when Saul left, the scripture says, "David returned to the stronghold".

David knew the spirit of Saul. He knew not to commit himself to him or to trust him. Sure enough in a few days, the insanity of an unforgiving jealous spirit fanned the flame again and Saul was after David to kill him.

Don't be fooled by the Saul's of the world. They will cry on your shoulder, declare their love, weep before the Lord, and try to destroy you all in the same day. These kinds of people used to deceive me with their spirituality until the Lord revealed to me the confusion of the "Saul spirit".

People with true spirituality have fruit in their life. They are kind and loyal and longsuffering. This fruit never fails to reveal where a person really is in God. The devil lives in confusion but his lies are exposed every time when we stay in the stronghold of prayer and ask the Holy Spirit to show us the true fruit of a person.

God bless you all,
Pastor Chambers
