

Think about it!

A million seconds= 12 days

A billion seconds=32 years

A trillion seconds=32,000 years

America's debt is 14.6 trillion dollars

Over 100 major American cities are teetering on the brink of bankruptcy.

What is wrong with America? It is not our financial crisis, it is not our current president. Our problem can be traced back to the 1960's when America outlawed God. We banned prayer from our classrooms, took 10 commandments off the walls and replaced God with relative values. Truth is what you make it. If it's true for you it may not be true for me. Absolutes were thrown out the window and anarchy is the fruit of 50 years of ignoring God. It can only get worse; in the natural the look is very bleak. But for every Christian we know some things.

1. That these days were prophesied of, in the Word of God and these are the precursor to the return of Jesus!
2. That God's people have virtually nothing to fear. As God protected Israel in Egypt when plagues were everywhere, so He will protect His own people in these last days.
3. Not only protection is promised, but provision too. God takes care of His own. Do not for a moment fear anything, anyone. God is your source and He will never forsake the righteous or let their seed beg bread!

God bless you all as you think on these things! **Be encouraged. It's about over!**

Sunday Night's Mighty Outpouring!

I know many churches have abandoned Sunday night services. It's just too much to ask of people now days. But cheer up, God is still moving mightily for those who make the effort. Last Sunday night, the Holy Spirit fell in ways not seen in a long time. People lingered in the altars weeping, others were filled with the Holy Spirit. And others were healed instantly!

I think God honors the extra effort. If you want more, Sunday nights is the place to be!!!
