

# shoes, an expression of faith.....

Recently I heard of a woman who is praying for her son to be saved. As she prayed God spoke to her heart to begin praising Him for her son's salvation.

As she began to praise God she began to see her son saved and in the church with his hands raised in worship. She got so excited that as she continued to believe, she felt the Lord speak to take it a step further. To get something tangible that belonged to her son and take it to church as an act of faith!

She got a pair of his shoes and brought them to church every week placing them at the altar and worshiped God there for the answer!

I believe God honors this kind of faith! I think we have petitioned long enough, it's time to start praising!

I will be preaching a message on this topic this Sunday, and I urge you now to begin to think of what you can bring to church as an evidence of your faith!

Remember faith sees it done and rejoices just as much as when it actually comes to pass!

God bless you everyone,

Pastor Chambers
