Challenge=Change

Until David challenged Goliath there was no change. **For 40 days** the whole Israeli army stood at a standstill, because there was not one man who would challenge the champion! Think of it this way, if you don't accept the challenge, 40 days could turn into **40 years**. Your enemy loves you living with a no confrontation attitude.

We have now completed the first month of the new year. How are your New Year's resolutions holding up? Don't give up on the changes you vowed to make! **If you have already fallen off the wagon**, get back up and go! God is for you, you can do anything with His help!

None of us enjoy challenges, We enjoy comfort. And if God leaves us alone we will never push hard enough to see change. Challenges are hard! They don't make sense, they are unfair and so many times they don't move. But they are a blessing because they are the only catalyst that causes real change.

So pick up your head, keep going forward in faith. **If you accept the challenge the change is inevitable. God doesn't call us wimps but warriors!**
